About me

IIn 2023, I embarked on a career change, beginning my studies at DCI Digital Career Institute GmbH to become a full-stack web developer. I was drawn to a profession that would let me combine creativity with the excitement of tackling new challenges. Throughout this journey, I've developed a strong foundation in building web applications and was honored to be chosen for the DCI Digital Career Institute GmbH tutoring program, where I assisted my peers and further honed my interpersonal skills through collaboration.

Experience

03.2024 - Present
Digital Career Institute Berlin

Tutor

- Provided personalized guidance to classmates, assisting them in their studies.
- Clarified course content to ensure a deeper understanding of material.
- Supported classmates on their projects, fostering a collaborative learning environment.
